Summary

Full-stack developer with hands-on experience in live projects during internship. Proficient in React, JavaScript, and Data Structures Algorithms. An optimistic and adaptable professional who thrives in both team and individual settings.

Skills

Languages & Frameworks: Java, Python, PHP, JavaScript, React.js, Node.js, Express.js, Bootstrap, Django, Tailwind CSS
Databases: MySQL, MongoDB
Developer Tools: Git, GitHub, Postman
Other Skills: Data Structures & Algorithms (DSA), RESTful APIs, State Management, Responsive Design, Secure Coding, Agile Methodologies

Experience

Software Developer

Sep 2025 – Present

Booming Bulls Academy, Gurugram

- Developing **responsive, SEO-optimized web applications** using **Next.js, React.js**, and **Tailwind CSS**, leveraging **SSR/SSG** for improved performance and scalability.
- Designing and implementing **RESTful APIs** using **Node.js** and **Express.js**, handling business logic, authentication, and seamless frontend integration.
- Implementing **JWT-based authentication**, server-side validation, input sanitization, and secure **database operations (MongoDB / SQL)** including CRUD and schema design.
- Collaborating in an **Agile environment** using **Git/GitHub** for version control, code reviews, performance optimization, and reliable feature deployments.

Software Engineer

July 2024 – June 2025

Oriental Outsourcing Pvt Ltd, Kharar, Punjab

- Contributed to a fundraising web platform by integrating **social media features** and implementing intelligent **Computer Vision (C-Vision)** functionalities.
- Developed **dynamic, secure web applications** using **React, JavaScript, Express Nodejs, MongoDB** optimizing queries and ensuring scalable database performance.
- Collaborated in a cross-functional team using **Agile practices**, debugging code and improving performance.

Projects

Weather App | *HTML, CSS, Bootstrap, JavaScript, OpenWeather API*

- Developed a **responsive weather application** fetching real-time weather data using the **OpenWeather API**.
- Implemented **asynchronous API calls** with JavaScript (Fetch/AJAX) to dynamically update UI without reloads.
- Handled **API errors, invalid inputs, and loading states** to improve reliability and usability.

Expense Tracker | *MERN Stack (MongoDB, Express.js, React.js, Node.js)*

- Built a **full-stack personal finance tracker** to record and categorize expenses with historical analytics.
- Designed and implemented **secure RESTful APIs** for user authentication, CRUD operations, and categorized expense tracking.
- Developed frontend using **React.js (Hooks/Context API)** for state management and dynamic rendering.
- Integrated **MongoDB database** with optimized schema design for scalability and fast queries.

Education

Chitkara Institute of Engineering and Technology

2021 – 2025

Bachelor of Engineering in Computer Science

CGPA: 9.13

Sacred Heart Sr. Sec Public School

2020 – 2021

CBSE

Percentage: 77%

Achievements

Organized and received a Certificate of Appreciation in **The Mind Fizz Critical Thinking Technical Quiz**.
Secured **AIR 45 among 500+ participants** in Fusion Friday.
Achieved a **4-star rating in SQL** on HackerRank.
